Blanding, Utah 84511

Subject: Reclamation Required, Moon Mountain Stone, Cloudy Moon Quarry, S0370116, San Juan County, Utah

Dear Mr. Murphy:

In accordance with rule R647-3-113.5, the Division of Oil, Gas and Mining requires reclamation of the Cloudy Moon Quarry referenced above. According to Division records and annual reports, the site has been inactive for five years, and the annual permit fee has not been paid. In addition, the minerals permit with the School and Institutional Trust Lands Administration has been cancelled for non-payment of the required annual rental, so you no longer have rights granted under the permit.

Reclamation needs to be completed by November 19, 2007, and failure to do so may result in enforcement action and associated fines. All equipment, trash, pallets, and other materials need to be removed and any spills or other contamination cleaned up. The site should then be graded and seeded.

Please coordinate the reclamation work with the Division. We are able to recommend a seed mixture and to provide other recommendations concerning site reclamation.

If you have questions about this letter, please contact Paul Baker at 801-538-5261 or me at 801-538-5258. Thank you for your cooperation.

Sincerely,

Susan M. White
Mining Program Coordinator
Minerals Regulatory Program
